

INVIROSHIELD

INVIROSHIELD<sup>TM</sup>

3.2 I P R T I  
PRODUCT COD 2

**PRODUCT DESCRIPTION**

3.2-mil semi-gloss clear overlaminare vinyl. Antimicrobial additives are incorporated into the film to inhibit the growth of microorganisms<sup>2</sup> and provide effective long lasting performance<sup>1</sup>

**APPLICATIONS**

- Surface protection film
- Menus
- $\rho$   $\delta$   $\delta$   $\delta$
- $\rho$

**FEATURES AND BENEFITS**

- Antimicrobial additives are incorporated directly into the film for maximum durability
- Good contact clarity

**TECHNICAL DATA**

Face Material	3.2-mil vinyl
Color and Finish	Clear semi-gloss
Adhesive	Permanent solvent acrylic
Liner	50# Glassine

**TYPICAL CHARACTERISTICS**

Target Adhesion Values	<u>15 min.</u>	<u>24 hr.</u>
(PSTC-1, 180° peel @ 12"/min., 73°F, on Stainless Steel)	50 oz.	75oz.
Minimum Application Temperature	50°F	
Service Temperature Range	-40°F to +180°F	
Shelf Life (@ 73°F, 50% RH)	2 years

<sup>1</sup> Antimicrobial additives are used within the film structure to impart antimicrobial activity to the manufactured product for the suppression of growth of algae, mold, mildew, fungi and bacteria which cause unpleasant odors, discoloration, staining, deterioration, or corrosion only. No public health claims are meant or implied. Sufficient testing has not taken place to provide information regarding user protection from disease causing bacteria, viruses, germs or other disease causing organisms.

<sup>2</sup>The above information is believed to be reliable, but does not constitute a warranty of any kind. All material should be fully tested by the purchaser to determine suitability of the product's performance related to the final application requirements and should be used and marketed in compliance with any applicable laws.
